

How to update your Chromebook

Is your chromebook taking way too long to load? It is probably because they need to be updated.

How to Update From any VUSD school campus:

Come to any VUSD campus parking lot to have your CB go through updates (especially for the ones that have been checked out since spring and students are reporting slow to load, buffering)

Come to any VUSD campus and connect CB to VUSD wifi (VUSDm not VUSD guest) from the parking lot or in the office .

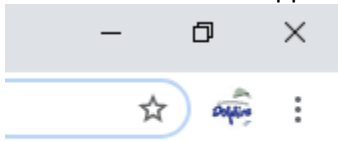

At Cabrillo- you must do this inside a building- the library is available to help you with this.

A little number will appear on lower right side of the screen. Click that.

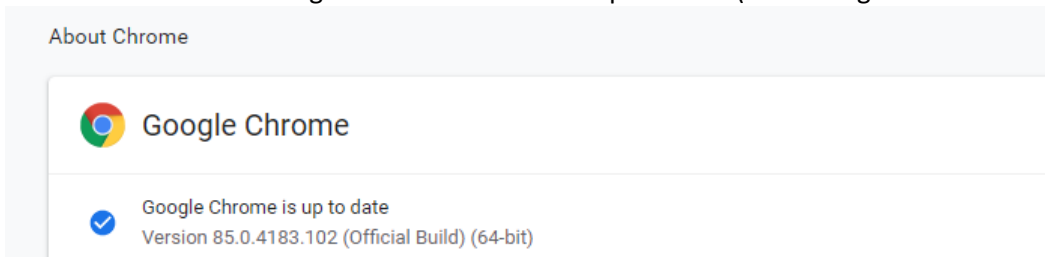

It will ask if you want to update, say yes. Shut the chrome book down and restart in from the VUSD wifi

How to Update the CB from home

1. Click on the 3 dots in upper right corner

2. Select or hover over "Help"
3. Select "About Google Chrome"
4. Look for "Check OS Settings" or "see if Chrome is up to date" (located right below Chrome logo)

5. Often times you'll be asked to restart, reset, or relaunch ... the version of Chrome may even be the current version

Another way to update from home:

Chrome in the upper right next to the address bar is the chrome settings.

Under Settings you can click on about

And then update (often it shows relaunch)

Chrome | chrome://settings/help

About Chrome

Google Chrome

Nearly up to date! Relaunch Google Chrome to finish updating. Incognito windows won't update.

Version: 85.0.4183.83 (Official Build) (64-bit)
