

Green Schools Committee Charge

The Green Schools Committee will develop and recommend to the Board of Education, policies for adoption that are consistent with State standards and with Ventura Unified School District's overarching goal of providing safe, healthy and high performing schools that reflect environmental awareness, environmental stewardship and fiscal responsibility. The Green Schools Committee will promote healthier, more environmentally sustainable schools, teach by example, and gather input and expertise from the entire community. The committee will report to the Board of Education semi-annually on the committee's progress toward meeting the goals and objectives of Ventura Unified School District as they pertain to environmental stewardship, sustainability and fiscal responsibility.
