

Chrome Updates

1. While in Chrome, click on the 3 dots in the upper right hand corner
2. Select or hover over "Help"
3. Select "About Google Chrome"
4. Look for "Check OS Settings"
5. If Chrome is not up to date, you will get a "Check for updates option" click that

6. You will receive a message like this when the update is complete
7. Then you click the "Restart" option.
8. You may need to repeat this process to complete the update and should be performed regularly to keep the Chromebook updated.
9. Do not download games/apps on the Chromebook as that will affect the speed, as will having multiple tabs and windows open.
10. Restart your Chromebook often.

Seesaw App

The Seesaw app is located on the bottom navigation bar of the home page (it is also located on the second page of apps). The first time using the app you need to set up your account. Once you have done this, in the future it will take you directly to your classes Seesaw home page.

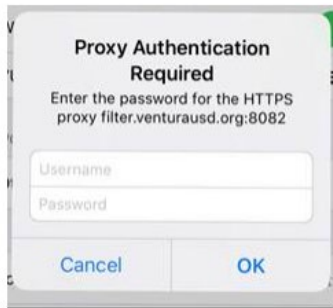

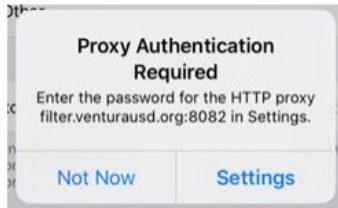

1. Open the Seesaw app
 2. Select "student"
 3. Select "sign in with Google". Usually you will be asked use google.com, if so, select "yes allow"
 4. The google sign in screen will pop up, enter your gmail (ie: jsmith@venturaedu.org) and your district password. Both of these are on your VUSD login page that was given to you.
 5. Seesaw will ask if you want to allow notifications when new items are loaded to your classroom, select yes or no.
 6. You are now on your class Seesaw home page anytime you log on.

VUSD iPad

If your student is having issues connecting to your home wi-fi, you will likely be prompted with what you see below. This is part of the Proxy server the Technology Dept. has configured to be able to filter the student's iPads while at home.

Username: student

Password: student2020

iPad Not Connecting To Zoom

If you are not able to connect to Zoom in the app, once connected to wifi go to:

Settings

General

Reset

Erase all Content and Settings

Erase

While the device is being updated you will see a black screen and the Apple logo. Once the process is complete you will need to reconnect the iPad.

To reconnect the iPad you will:

See the hello screen

Select language

Select country

Quick start select "set up manually"

Choose your wifi network

Remote management select next in the top right hand corner

Select enroll this device

Select enable location services

Launch zoom

Proxy Settings: **Username: student**

Password: student2020
