

What is Naviance?

Naviance is a comprehensive K-12 college and career readiness solution that helps districts and schools align student strengths and interests to postsecondary goals, improving student outcomes and connecting learning to life.

Naviance's "Family Connection" is a web based program for academic planning, college and career research. Naviance helps students and families connect what students do in the classroom to their life goals, including finding colleges and careers based on their personal skills and areas of interests. Naviance provides a single location for school and district administrators to engage students and families, improve college and career planning and measure student outcomes. We encourage parents, guardians and family members to explore the wealth of information contained in this incredible resource.

College and Career Preparation

Each student's path is unique. How can your school or district help all students reach their unique goals by connecting their passion to their future? Naviance allows students to create a personalized plan that helps them make the right decisions throughout their academic journey.

Career Exploration

Connecting students' interests to their potential career paths early ensures active participation in their own academic success and opens their eyes to the wide world of career opportunities. The career planning tools in Naviance allow students to understand how their strengths, goals, skills, and interests can lead to exciting careers.

Academic Planning

Early academic planning is critical to helping students achieve long-term success by aligning their interests with their chosen path. Naviance keeps students focused on their objectives by helping students, families, and staff create course plans that not only match students' interests but also fulfill graduation requirements and align to postsecondary goals.

Self-Discovery

Students build confidence by trying new things, pursuing what they love, and learning from their missteps in a safe environment. Naviance is that safe place—by helping students focus on what's strong, reflect on their interests and strengths, and explore a wide-variety of career options.

The Ventura Unified School District will educate all students in safe, healthy, and high performing schools. We will inspire all students to excel academically, honor the unique qualities and diverse backgrounds of all students, build supportive relationships, guide all students to reach their full potential, motivate all students to successfully pursue their chosen life path, and engage all students to become responsible and contributing members of society.

College and Career Readiness at Your Fingertips

As the world's most widely adopted college- and career-readiness platform, Naviance serves millions of students by helping them tie academic achievement to post-secondary goals. This system is now available to students in the Ventura Unified School District.

Our comprehensive college and career planning solutions optimize student success, enhance school counselor productivity, and track results for school and district administrators. Naviance provides a single location for school and district administrators to engage students and families, improve college and career planning and measure student outcomes.
